FOR IMMEDIATE RELEASE
April 20, 2006

Online bill payment, forms, now available on City website

The City website, www.wilmingtonnc.gov, has been enhanced to include online services such as utility bill payments and several online applications and forms.

Forms such as employment applications, filming applications, a form to email City Council, and various permit applications are now available for citizens to fill out and submit online with no need for faxing, printing, stamps, or mailing.

Additionally, citizens now have the option of paying their City water bill online or by phone with a credit card or debit card. This is an additional option to being able to pay the City water bill in person, by mail or by after-hours depository.

Online and telephone credit card payments must be made 48 hours prior to the payment due date in order to ensure the payment is received on time. A convenience fee will be assessed for each payment made.

###

For additional information, contact City PIO Malissa Talbert at 342-2736 or 470-8720.
